INVESTMENT COLUMN

Reading Bengaluru's growth areas by stage

The Bidadi GBIT / AI City is listed as approved, with project cost, phase-one final notification and a jobs claim reported by The News Minute. A buyer might ask which of those has reached execution, and which remains a claim.

KWIN City is described as spread over 5,800 acres between Dobbaspete and Doddaballapura, with expressway access, but is still at announced stage. The Harohalli second airport is only proposed. These are considerations on timing, not forecasts.

The Bengaluru Business Corridor is at tendered stage, and the BDA is reported to be acquiring land for its interchanges. Buyers may wish to check approvals, title, water and execution risk before relying on any announcement.

Considerations, not investment advice. Check approvals, title and RERA registration before buying.
