5. GOVERNMENT MOVES IN THE LAST 72 HOURS

No government or infrastructure development published in the window was captured.

Scenarios, opportunities and risks

6. GROWTH SCENARIOS

Insufficient evidence to estimate for every corridor and property type: no cell has appreciation evidence from ≥2 independent original sources (media relaying the same research house count once). Formula when estimable: $FV = P \times (1 + g)^{years}$; base = 0.8 × historical median CAGR, capped at 12.0%, real after 4.5% inflation.

7. OPPORTUNITIES TO INVESTIGATE

1. **Panathur–Balagere — apartment**: 3.6/5, confidence Low
2. **Sarjapur Road — apartment**: 3.5/5, confidence Low

Usable evidence cited (first 12)

Method: claims carry URL, verbatim excerpt, publication/event dates and retrieval time; statuses are set by code (official → verified; ≥2 independent original sources → corroborated; one reputable source → single source; developers, brokers, portals, consultancies and influencers → interested party). Guarantee language, failed citation checks and failed or split independent reviews force ‘unverified’.
