INVESTMENT COLUMN

Reading Bengaluru's growth areas by stage

Several outer growth areas have moved beyond announcement. Q-City at Hesaraghatta is approved, with land allocated and sanctioned. Bidadi Township/AI City is approved, with GBDA as executing agency. Buyers may wish to check how far approvals have turned into works.

Others remain at an earlier stage. SWIFT City near Sarjapur is announced, with 150 ft roads planned. KWIN City is announced, with a central monorail planned. The Harohalli second airport region is only proposed. Considerations include land title, water and execution risk.

Plans can change: Karnataka dropped acquisition of over 1,777 acres in 13 villages for the Devanahalli Aerospace Park, and its stage is unclear. BMRDA's three proposed townships, with Bidadi as pilot, are also at proposal stage.

Today's news shows how timelines slip. The STRR Hoskote–Hosur stretch awaits an overbridge, and NHAI is looking at December for a phased opening. These are considerations, not advice or predicted returns.

Considerations, not investment advice. Check approvals, title and RERA registration before buying.
